"Ton of Lead"

So you make it simple
To leave the world behind
Gather all your feelings
Keep 'em all in line
Bet you think it's easy
To keep it in your head
You better let it go now
Before you end up dead

Let go

Now my little lover
You see the sun
Feel the warmth inside you
Changes everyone
Now my own brother
I can feel the pain
But all those wounds inside you
Well, they got to change

Let go, Hey Hey

If I fall
I'll come down
I lay there like a ton of lead
As I hit the ground
If I fall
I'll come down
I lay there like a ton of lead
Lay my words out on the ground

Your life won't last forever
And fools they think they're clever
But I could tell a story
About the one you treasure
I've always been a free man
Spoke inside the wheel
Always turn it faster
Gonna make you see what's real

Let go, Oh Oh

If I fall
I'll come down
I lay there like a ton of lead
As I hit the ground
If I fall
I'll come down
I lay there like a ton of lead
Lay my words out on the ground

Don't you, don't you try to tell me
Don't you, don't you try to show me
Don't you, don't you try to break me
You'll only be let down
Why can't I try to make you listen
Why can't I try to make a difference
Why can't you even hear me calling
Before I hit the ground

If I fall
I'll come down
I lay there like a ton of lead
As I hit the ground
If I fall
I'll come down
I lay there like a ton of lead
Lay my words out on the ground

Oh when I fall
When I fall
When I fall
Yeah when I fall
