I fall asleep there's a tense atmosphere
It's you I see like a weird prophecy
Camels burning in the snow impressions of the night
The shadow of a stranger your expression of delight

All I want is to love you
Neither secrets nor compromise
All I want is to love you
My jealousy that's the other side
Oh, you!

My jealousy!

I go to bed tingle thoughts in my head
I feel the night these dreams that torment me
You together with another boy of the war
It's not easy to get convinced you won't betray me

Never more

All I want is to love you
Neither secrets nor compromise
All I want is to love you
My jealousy that's the other side
Oh, you!

My jealousy!

You together with another boy of the war
It's not easy to get convinced you won't betray me
Never more

All I want is to love you
Neither secrets nor compromise
All I want is to love you
My jealousy that's the other side 2X
