[Verse 1:]

I will wait for you. When I'm far away.
There's nothing can keep us apart.
I will wait for you.
I will try to keep this strong,
You and I have come to far and these aren't chances,
When you're taking my hand and;

[Chorus 1:]

I can't put you into words,
There's just something in the way that you get me.
It's all that it should be.

[Verse 2:]

Will you wait for me? When your far away?
The longer we wait the worse it gets and I can't wait to
get you home.
I will try to keep this strong,
You and I have come to far and these aren't chances,
When you're taking my hand and;

[Chorus 2:]

I can't put you into words,
There's just something in the way that you get me.
It's all that it should be.
And when you're across the world alone,
Promise me you'll sleep and dream of me
Dearly knowing I'm here for you...

[Bridge:]

Tell me you want, this life with this love.
Tell me you want, to leave this life behind with me.

[Chorus:]

I can't put you into words,
There's just something in the way that you get me.
It's all that it should be.
And when you're across the world alone,
Promise me you'll sleep and dream of me
Dearly knowing I'm here for you...
