Somewhere past midnight when the moment is just
right

We ride the streets of desire

We take it slow and always get where we're goin'

'Cause where there's smoke, there's a fire

There's no denying, we don't need to keep trying

Let's face the music and dance, yeah

Well, it's all semantic, what we never say

What we feel ain't goin' away

So I wonder, how could we be feeling

More than this, tell me true, what it is 'cause

Something has to make us feel this way

(Love by another name)

Doesn't matter 'cause it's still the same love

Won't depend on the words we say

(Love by another name)

'Cause something happens when we're making love,
yeah

Si ce n'est pas l'amour

Qu'est-ce que c'est?

We're superstitious when every day is like Christmas

It should be left undisturbed

No promise spoken, hearts don't have to get broken

More than a four letter word

If we're pretending, we can write a new ending

If we don't like where it leads, yeah

Well, it's new romantic, action over words

The sweetest nothings that I've heard

I can't tell you everything I'm feeling

More than this, do you know what it is? 'Cause

Something has to make us feel this way

(Love by another name)

Doesn't matter 'cause it's still the same love

Won't depend on the words we say

(Love by another name)

'Cause something happens when we're making love,

yeah

Si ce n'est pas l'amour
Qu'est-ce que c'est?

I know that I can't describe, what I'm feeling inside
Maybe I'll learn
I guess, I live with the fear this could all disappear
If I try to put in words

Something has to make us feel this way
(Love by another name)
It doesn't matter 'cause it's still the same love
Won't depend upon the words we say
(Love by another name)
'Cause something happens when we're making love,
yeah

It's still the same old love
(Love by another name)
It's still the same old love
It makes me feel this way

It's still the same old love
(Love by another name)
It's still the same old love

It's still the same old love
(Love by another name)
It's still the same old love

It's still the same old love
(Love by another name)
It's still the same old love
