Solidified vomitus gutted virgins blood in vaginally
expulsed flesh wax
melted flesh under blistered female skin, carved
through
stomach
fecal pus rectum, swallowed putrid offal
disgorging instinct drowned inside a sick mind
sordid urge to gormandize her alive
hot virgin blood dripping from my decayed teeth
taste of fresh organs, I puked on anal walls
pleasure and lust of depravity, psychosexual perversity
feeble virgin torso laying on filthy burial ground
horrendous scene of murder,
her tasty flesh munched till I cum
unidentifiable remains chopped in a meat grinder
this is a permanent torture, an inexhaustible sodomy
strangulation strings still draping from her beautiful
neck, voracious hunger
after the bondage ritual, digesting the disembodied
female corpse
feeding inhuman fantasies, crushed internal organs,
blood
totally discarded
no expressions on her fuckin face, your beauty turned
into shit after massive torment
hot wax pouring on her disfigured body, another
beauty, a
deformed face for my collection of female butchery,
mass graves under my room, I still hear souls
suffering,
Last days of my life,
I already reserved my room in hell.
