

Cenotaph "Stabbed Faces"

Visit "[Stabbed Faces](#)" on MotoLyrics.com

Stabbed faces lying soulless
Pulverized heads chopped in half
Deep cutted wounds starting to rot
Dead human parts are growing like a tree from
basement
Broken bones.
Flowing liquids gutted victims of insanity
Total horrific amputation of fucked torsos
Colostomy beyond belief
Maggots infected around rectum
Decayed innards, stench of pukelization process
Urge to vomit pus, lymphatic tissues removed inside
Pathological view of Nephrectomy
Rotting mass of vaginal lubricant
Dyspraxia of inserted intestinal feces
Process of nausea, death of entire body
Acute Trauma causes malignancy putrid organs
The absence of blood vessels
Unrecognizeable mucuous cells
No remains left behind
Devoured corpses beginning to skeletonized...
