Your goddamn existence is making me sick and  
driving me  
insane  
boiling anger in my veins  
you are just a worthless putrid mass of flesh  
your weak body cant resist at all  
I ll chop you into little pieces and hacked up for dinner  
my passion of rage and enticing urge to stab  
in disrespect to human mankind, you are just a piece of  
shit  
look into my cold eyes, feel my cold knife  
senseless stabbing, murdered, cruel dead  
all organs ripped out.  
I stabbed deeper and deeper  
ferocious killing  
hear your last breath  
billions of worms are lingering to eat you  
your skin is melting, unrecognizable identity on face  
thirteen days later your body will start to decay  
tale of horrid gore  
intense stench of the dead  
I sent you to heaven that you dreamed of  
the stench of the decomposing body, I feel better  
today
