Staring at you with the revulsion within
Plotting the ways to end this infection
Your infectious life, soiled being
Standing by your side, but with the saw this time
Wait on.. whore wait on.. your misery is coming
Vomiting psycho intents, here to feed you
Choke on.. whore choke on your own blood

Guts that used to take pleasure in, now ripped out
Throbbing on the floor, a fuckin desperate prey
Your ribs are wide open instead of your legs,
Disintegration initiates with the psycho intents
Abhorrence of the saw, ferocious slay
Raw cold blooded retaliation
Sultry pus on your face, you are blood red
For what you have to pay
Saw chops the genitalia, heart dismantled
You have nothing to give to no one now

Hands tied, blind folded get your excruciating reward
Vomiting psycho intents to your insides
Repulsive entity covered with emission and gore
Dilapidated flesh, ragged skin still warm
Laid down, moaning, pathetic
Betrayal redefined, memories erased
Broken your cycle of deception

Decapitated, eyes soaked in blood
You cant carry on whore cant carry on
Your sickest fuck is over, a gruesome carnage
Hope it satisfied you nympho
Suffer on whore.. suffer on your deterioration
