You know this boogie is for real

i used to put my faith in worhip  
but then my chance to get to heaven slipped  
i used to worry bout the future  
but then i threw my caution to the wind  
i had no reason to be care free  
no no no, until i took a trip to the other side of town  
yeah yeah yeah, you know i heard that boogie rhythem  
Hey-i had no choice but to get dwon down down.

Dance, nothing left for me to do but dance  
off these bad times im going through just dance  
got canned heat in my heels tonight, baby

i feel the thunder, see the lightning  
i know this anger's heaven sent  
so ive got to hang out all my hang ups  
because of the boogie i feel so hell bent, hey hey  
it's just an instant reaction, that i got  
i know i never ever felt like this before  
i dont know wat to do  
but then there's nothing new  
stuck between helland high water  
i need a cure to make it through

Hey dance nothing left for me to do but dance  
off these bad times im going throught just dance  
hey got canned heat in my heels tonight baby  
you know know know im gonna dance yeah  
off the nasty things that people say

only the wind can blow the answer  
and she cries to me when im asleep  
she says you know that you can so so much faster  
i know that people talk can be so cheap  
i got this voodoo child inveined on me

im gonna use my power to ascend  
you know i got these running heals to use  
sometimes there's no way o lose  
i was born to rock and built to last  
you've cant see my feet cause they move so fast

off these bad times im going through just dance, yeah  
got canned heat im my heels tonight baby
