### "I See Through You"

sun's up, the stars are sleeping  
and the morning's come  
i'll see all that's creeping  
til our work is done  
and the more i learn about this world

ooh don't talk,  
just listen to all the voices nature brung  
pray the light will keep you til your final song  
because the more i learn about this world  
the less i find that i'm afraid to die

the day's gone  
the nighttime's breathing  
and our work is done  
i'll note all that's golden  
til our morning comes

the more i learn about this world  
i learn through you
