### "Feast Of The Cross"

Choronzon with us abide!  
Its the night of the cross  
All come to the congregation  
Come to celebrate the sign of our lord choronzon

Come to receive the perfection of light  
Tonight out spirits burn under the cross of redemption

Follow the path to the foot of the cross  
Follow the path reversing and blessing  
Follow the path concealed in revelation  
Follow the path the one way is threefold

Erect ye the shape of infinite fire  
Raise aloft the serpent within  
Return and find ouranos sulphur  
Erect the cross of unconscious will

We bear the mark that scatters illusions  
We bear the mark that dissolves the gods  
Be it multiplied and worshipped  
Carved on the foreheads of all!
