Scourging paths of the impermissible  
Descending upon dwellings of those  
Breeding affliction,  
Impregnated with the seed of lechery  
Incapacitating and absorbing  
With the abducted  
Lead through labyrinthine passageways  
To an enshrouded enclosure,  
Strewn with the deformed bodies  
Of those previously abducted  
Placed under empirical scrutiny  
Achieving fetal deformities through  
Chemical experimentation  
Embryogenic aberration,  
Spawn born of infliction  
Hideously deformed, liquified,  
Drowning in fluids of colporrhagia  
The hosts, Slaughtered upon genesis  
Remnants of which, embedded in  
The dilapidated surface  
Breaches within the cold concrete  
Drain the sopped heaps of  
Dissevered raw meat  
Stagnant pools of rancid  
Excretion permeate the grounds.  
Bisected malformations  
Enshrined upon stakes  
Steeped in corrosive vaginal discharge,  
Mephitic afterbirth  
Few survive to forbearingly  
Gaze upon the teras  
Unmitigated abdication  
Bow to me  
Bow to me for I've defiled your brood  
Misanthropy  
Macerating spawn of the profane  
Mutilate these entities.
