

## Beautiful South "A Minute's Silence"

Visit "[A Minute's Silence](#)" on [MotoLyrics.com](https://MotoLyrics.com)

With a minute's silence for the dead  
And a minute's silence for the long-lost lovers  
No one's really in the mood for beer

With a minute's silence for the child  
And a minute's silence for the grieving mothers  
There's not much talking going down here

With a minute's silence for the girl  
With a minute's silence for the younger brother  
Things have never been so clear

With a minute's silence for your friend  
With a minute's silence for your long-lost folk  
A minute's silence lasts a year  
A minute's silence seems a year

And the park is filled with pain  
For this age has laid its claim  
And the street's about to cry  
Cos it longs for passers-by  
It longs for passers-by
