Speak to me, speak to me
Speak to me, speak to me
Tell me all about the way you feel
Speak to me, speak to me

Tell me all the things I want to know
Tell me all the places that you go
Tell me all the nothings in your life
Mix them with the some thing's in your life

Speak to me

My name is Joy, I am thirty
And I was born on the 13.2.60
I work as an accountant
And my dream job would be to be a pilot

This morning for breakfast
I had half a grapefruit
My favorite part of myself is my face
My least favorite part of myself is

Sometimes when alone
Perhaps late at night
I like to read a dirty book
And watch Prisoner Cell Block H
My favorite animal
