My body and my soul  
Rhythm in motion  
I have full control

One life, think about it  
Your life, don't you want it  
One life, don't abuse it  
Your life, think about it

In my mind, driving me wild  
What thoughts lie  
(And) what prevails

One life, think about it  
Your life, don't you want it  
One life, don't abuse it  
Your life, think about it

Mind within mine  
What path shall we find  
Mind within mine  
What fortunes twist our minds

What is me (and) what am I  
Why do I feel so unreal  
What speaks me (and) proves my while  
Makes me fall (and) makes me kneel

Mind within mine  
What path do we take  
Mind within mine  
What directs the uncertain mind
