My body and my soul  
Rhythm in motion  
I have full control  
One life - think about it  
Your life - don't you want it  
One life - don't abuse it  
Your life - think about it  
In my mind  
Driving me wild  
What thoughts lie  
And what prevails  
Mind within mine  
What path shall we find

Mind within mine  
What fortunes twist our minds  
What is me and what am I  
Why do I feel so unreal  
What speaks me  
And proves my while  
Makes me fall  
And makes me kneel  
Mind within mine  
What path do we take  
Mind within mine  
What directs the uncertain mind
