i want you to find me  
but i don't want you to touch me  
seems so disgusting  
to be handled like a doll  
i'm not trying to be dramatic  
i'm trying to be nothing  
so when you find i've finally done it  
please burn me where i lay

things aren't getting any better  
things are only getting worse  
i'll apologize for the mess of my life  
for the rest of my life, forever  
unless you promise, promise to kill me first

i want you to find me  
but i don't want a big party  
hiding my body in the ground  
so your version of the story is safe for the rest of your  
lives  
i'm crying for attention  
i'm done  
i'm trying to resign  
so when you find i've finally done it  
forget my name and set my stupid fucking corpse on  
fire

i'm not afraid  
why should i be?  
i've got all my friends from baltimore right here with  
me

i'm not afraid  
why should i be?  
i've got all my friends from highschool right here with  
me

eventually i'll have to take them  
on my break if i don't shake less  
empty hands. the fire's left  
they can't quite fight with their old strength  
i'm so tired

i'm torn up  
it's over now  
you can make me normal

your eyes are broken  
you must lose them  
take the pills  
kill the delusions  
you can't see it's adequate  
so swallow while you can't fix

i havn't shaken in what seems like forever  
i have let go of all my old obsessions  
i'm healthy i am better  
there's no more songs so when i'm dead and gone  
i know it won't be the new me they rememeber  
but i don't need my eyes to see  
my eyes have only lied to me  
recognize the time for quitting  
and your vision will outlive them all
