Let us go more with love have driven us out of the  
prison  
One can find a way to love her, one can't achieve  
That's the way it goes lady

When you make me cry you don't have the right  
So baby would you still (be) in love if we together were?  
What to do right now, she is waiting in the crowd  
I wonder if she asks "Are you coming with me?"

Chorus:  
Should I again go through?  
Even if you shut the door without thinking before  
I start begging for more  
Should I again go on?  
Even if it's getting worse when there's nothing I can do  
Let's hope love comes through

Get out of here if I know that you fool me with one else  
on purpose  
One can find a way to ignore, one cannot bear  
Somehow we'll soon see lady

When you make me smile then you don't have the time  
baby  
Will you still in love when we together are?  
What to do right now?  
She is coming closer now  
I wonder if she says "Are you coming to my home?"

Chorus
