Way up in the sky, not a cloud is flyin' by
A picture perfect afternoon
Birds upon the wing, I can hear them sing
Chirping out a happy tune

But I'm walkin' around with my head hanging down
Got a reason for feeling this way
Since you've been gone, things look so wrong
The sky's got the blues today

The sky's got the blues, just like I've got them for you
That old sky's got the blues and I've got nothing to look
up to
It's a beautiful day but it's just another shade of me
missin' you
Yeah, the sky's got the blues, the sky's got the blues
today

Everyone I see, happy as can be
Loving all this warm sunshine
So many things to do, beneath the sky of blue
Not a worry on their minds

Oh but I could stand a change, some clouds or some
rain
Now ain't that sad to say
It could take a turn as far as I'm concerned
The sky's got the blues today

Yeah the sky's got the blues, just like I've got them for
you
That old sky's got the blues and I've got nothing to look
up to
It's a beautiful day but it's just another shade of me
missin' you
Yeah, the sky's got the blues, the sky's got the blues
today

Yeah, the sky's got the blues today
