I was born on the wrong side of the city
Desperation in my mother's eyes
Factory whistle wake me every morning
At night the sirens sang my lullaby

Fought my way out of the blue collar jungle
Heart of leather and hands of steel
Thought I was too much of a sole survivor
To ever feel the way I feel

But I don't want to live without your love
I don't want to live without your love
I can't take another night and I've lost the will to fight
I don't want to live without your love

Dance with the devil in a bottle of whiskey
I paid the fiddler for every song
You'd think with all the lessons learned the hard way
I'd know enough to be strong

I don't want to live without your love
I don't want to live without your love
I can't take another night and I've lost the will to fight
I don't want to live without your love

No, I don't want to live without your love
I don't want to live without your love
I can't take another night and I've lost the will to fight
I don't want to live without your love

I don't want to live without your love
I don't want to live without your love
I can't take another night and I've lost the will to fight
I don't want to live without your love

Without your love
Without your love, baby
Without your love
