"Too Soon My Love"

Too soon, my love, the summer's kiss has gone
Too soon, my love, the frost lies on the lawn
It seems the autumn season
Brings sadness for a reason
It seems to me that way & yet I know

It's you, it's you & not September song
That wakes my sleep & makes this night so long
It's you in every way
Through every single day
& in a crowd it's just the same
I always hear your name

(x2):

Now as snow clouds gather from the sea
I still can hear your voice call out to me
& though I'm just pretending
This summer has no ending
My love for you is like a constant tune

(1st time):

With words of love that ended all too soon

(2nd time):

With words of love that ended all
Words of love that ended all
Words of love that ended all too soon
