Iâ€™m all alone since you walked away  
As i begged for you to stay  
You decided to leave me behind  
It hurts to think that our love didnâ€™t last  
We build it up to watch it fall  
Watch it fall down

[Refrain]

Well even though we moved our separate ways  
My love for youâ€™s still the same  
My heart still beats your name

[Chorus]

I wish youâ€™ll hear me singinâ€™  
Singing this song for you  
And let you know that iâ€™m still  
Still longing for your love  
I wish youâ€™ll hear me singinâ€™

Singing this song for you  
And let you know that iâ€™m still  
Still breathing, still need you  
I wish you were here with me

I paid the price, i gave the best of me  
But i couldnâ€™t give you what you need  
So you turned and walked away  
It hurts to think that our love didnâ€™t last  
We build it up to watch it fall  
Watch it fall down

[repeat Refrain and Chorus]

Cos i canâ€™t live without your love  
I canâ€™t live without your love

[repeat Chorus]
