[Mastamind]

Uh Uh, Oh, Whassup

It came to this now huh?

We gotta cut mothafuckas like this now right?

Uh uh, what? what? hey yo hey yo hey yo

[Mastamind]

Everytime I come around niggaz look at me up and
down

What the fuck now? Do I gotta get buckwild?

My stress is at its all time high

I'm just not impressed, with softees actin hard I gives a
fuck less

Do I gotta open his head up somethin surgical

Take em vertical, never tatum while the verse is full

Oh no! We gotta bleeda, bitch meet the reaper

The devil ain't got no love for you, me neither

You don't want a nigga like me to see ya, keep a heata

The way my demons want you dead wouldn't wanna be
ya

Joke's up, the G loc's up, so what shut up

We gon' see how tough you be when we roll up

Talkin more shit that a critic would til we visit his hood

Break his limbs chop him down, split his wood

Time out, get him out the game anyway

Fuck what anybody say, I can live with the fame

I came to master the game and dish out pain

You can't weather the storm get out the rain

All my killaz chant, die die

Dat all my killaz in the van, bout the murda ride

And strive, when we collide ya better be somewhere
inside

Keep screamin fo yo life can't look a demon in the eye

[Esham]

You, you, you too light in the ass to try to step in the
ring with a heavy weight

I'm bout to kill you, I give you a shot at the title but you
must be suicidal

Who's ya idol punk? Who's ya idol? You wanna piece a
this?

You can't handle this scandalous shit
Brain surgery you better murder me I need some
therapy
For those who never hearda me you need a lombotamy
Gotta be in ya head like purgery, purgatory
Concocted the evil rhyme inside the laboratory
Pimped Boomin Words From Hell way before D-12
Tell me your favorite white rapper act like a female
Bitch, slit ya wrist like ya dumb wife, Kim
Scribble my name on the wall, I love E-S-H-A-M
Choke a psychiatrist, choke the mic in my fist
Chokin off the bomb smoke his therapy says my
therapist
I sniffed through much 'cane, wanna kill too many
people
So I hafta hear no, see no, say no motherfuckin evil
Brain surgery open ya head up wake the dead up
Never let up till ya wet up when ya fall down never get
up
Brain surgery open ya head up wake the dead up
Never let up till ya wet up when ya fall down never get
up

[Shoestring]

Come peep my skills and operation
Stick it in yo brain, a mental patient
Lookin in yo mind, bitch you still cryin
Open up yo head and hit that line
I tap them nerves and it makes you wiggle
I kill more brains than Dr. Giggles
So call us up if its urgent
Dr. Kill Kill, yo fuckin brain surgeon
Dr. Kill Kill, yo fuckin brain surgeon
Dr. Kill Kill, yo fuckin brain surgeon
