Ooh baby, ooh baby
Ooh baby, ooh baby
You've got me reelin'
You've got me swingin' to your melody

Oh yeah

I never knew a man
Could love me this way
I never knew it
Now I'm happy to say
I'm gonna get some reelin'
I want a lovin' feelin'
Baby, how you blew me away
It must have been love
Wasn't ready for the heavy way
It took me by surprise
Now I'm lovin' and it feels okay
We let our lovin' take us far away

Ooh baby, ooh baby
Ooh baby, ooh baby
You've got me reelin'
You've got me swingin' to your melody

I'm in a hot house

Come on, sailor

I'm calling you, I am calling you
I wanna know do you have to go
Come on, sailor
I'm calling you, I am calling you
Calling you

Come on, baby
Come, I'll be waiting right here
Anyone's love for a price can be found
Come home with me, baby

Casbah

I'm calling you, I am calling you
I wanna know do you have to go
Come on, sailor

I'm calling you, I am calling you
Calling you

Calling you, calling you, hey you

Oh baby, what a feel in the flight
Come on, sailor

What did you say, what did you say
I wanna play, I wanna play
Why don't you stay, why don't you stay
Don't run away, don't run away

What did you say, what did you say
I wanna play, I wanna play

Play your sax for your lady
I'm makin' tracks with you, baby
Play your horn for me, baby
Heaven has hit me
Blind me completely

Ooh baby, ooh baby
Ooh baby, ooh baby

I'll drag the phone right around
There is no, not a sweeter melody
I'll drag the long night around
There is no, not a nicer melody

Mi corazÃ³n
I didn't know how to say (Con alma)
Ooh I love you
Oh what a price to pay
Ooh this time
You'll never run away
You and me, baby

Takin' giant steps, takin' giant steps

Giant steps, giant step, giant steps
