Seems like an eternity, since I've been in your arms
A multitude of colorless hours pass
I crave the life inside you, it keeps me from harm
I only pray that it's not just another God

Eternity, I want to be with you for all eternity
Darling, you be the only one for me
Together for eternity

I long to touch you
(I long to touch you)
To feel the warmth in a world so cold
Whenever we, ooh, I don't know

But I want you all the time
(I wanna hold on)
You are the beginning, middle and end
To every story told, you are the science of my mind

And it seems like a year away
That you and I were making love
One should take life from day to day
But all my dreams are made of
All my dreams are made of eternity
