How high the sky goes
Nobody wants to know
That's how your love seemed to grow
Like the winter gives birth to spring
You've become my everything
And in my life it must show

Chorus:

Keep it comin', keep it comin'
Keep it comin', keep it comin'
Comin' comin' straight to me

I find with no one else
I could express myself
You took the time and looked in my mind

Like mysteries untold, I'm starting to unfold
You reached the limits of my soul

Chorus:

Keep it comin', keep it comin'
Keep it comin', keep it comin'
Comin' comin' straight to me

How high the sky goes
Nobody wants to know
That's how your love seemed to grow
Just like the world keeps going round and round
And we never fall off the ground
Like gravity your love is pullin' me

Chorus:

Keep it comin', keep it comin'
Keep it comin', keep it comin'
Comin' comin' straight to me
