

Chaka Khan "Love With No Strings"

Visit "[Love With No Strings](#)" on MotoLyrics.com

Well, well
Take me to your heart
Take me to your heart

I, I can't explain
How you got inside my system
But I feel the sweetest pain
I, I can't do that
But I've got to break this tension
If it makes you feel the same

An ordinary woman
That's all I am
And I think I'm fallin'
For an ordinary man

Take me to your heart
When the love begins
You and I can only try
To make a love with no strings

Take me to your heart
When the story ends
You and I, we can't deny
We're in love with no strings

No conductor
Could've played this situation
Better than a fool or millionaire
I won't tie you down
With a little love and affection
All I wanna do is share

A little time together
Maybe holding hands
An ordinary woman
An ordinary man

Take me to your heart
When the love begins
You and I can only try
To make a love with no strings

Take me to your heart
When the story ends
You and I, we can't deny
We're in love with no strings

An ordinary woman
An ordinary man, yeah

Take me to your heart
When the love begins
You and I can only try
To make a love with no strings

Take me to your heart
And when the story ends
You and I, we can't deny
We're in love

Take me to your heart
When the love begins
You and I can only try
To make a love with no strings

Take me to your heart
When the story ends
You and I, we can't deny
We're in love with no strings
Take me to your heart
