A brand new meaning
For what's goin' on today
I felt it comin'
Thought i'd pass it on your way
In case your head's in the mighty fog
There's a thought, a show in the dark, i say

Pass it on, sure thing, pass it on
Pass it on, sure thing, pass it on

Pass it on, a sure thing, baby

Good things coming
If you care to wait your turn
Heart's desire
With enough here left to burn
Because the love's all around you see
If you're lovin' you will receive, i say

Pass it on, sure thing, pass it on
Pass it on, sure thing, pass it on

A sure thing, baby
Make it feel good tonight
Make it feel real good
Baby, baby, baby, baby
Well, well, well, well

Just imagine havin' to know it all
No more guessin'
'cause your left hand's in the thought
Consult me when you need a friend
Pass it on and you're feelin' lost, well

Pass it on, sure thing, pass it on
Pass it on, sure thing, pass it on
Pass it on, sure thing, pass it on
Pass it on, sure thing, pass it on
Pass it on, sure thing, pass it on
