(Written by Bebel Gilberto, Didi Gutman, Marius de Vries)

So winter's come

And summer's fall

Time is just a whisper

In a waterfall

Forever now

Forever now

Every road I wander

Brings me back here

Next to you

Be still my love

And close your eyes

Don't say a word

No hows or whys

Everything I need, within me

All the dreams I've dreamed, are true

And all the starry skies, inside me

When I'm next to you
