

Chakra "Doors"

Take me back again,
And wake this child that's sleeping.
Slip inside my head,
And make my mind believing.

You, you open up the doors I close.
The things you do
Bleed into my heart and soul.
I try, I try to let these thoughts unfold,
Unlock my mind, and open up the doors I close.

I am not alone,
I feel you watching over.
Slip inside my soul,
Until the light is closer.

You, you open up the doors I close.
The things you do
Bleed into my heart and soul.
I try, I try to let these thoughts unfold,
Unlock my mind, and open up the doors I close.
