Don't be afraid, your world is dark tonight  
For without love, how can your spirit sing?  
You are a bird with wounded wings

You're not alone  
I've come to take you home  
You're not alone  
I've come to take you home

I'll show you life  
I'll heal your heart tonight  
Everybody needs a helping hand  
I can help you understand

You're not alone  
I've come to take you home  
You're not alone  
I've come to take you home

You're not alone

Come to take you...  
Come to take you...  
Come to take you home  
You're not alone

You're not alone  
I've come to take you home  
You're not alone
