"The Woman's Voice"

Visit "[The Woman's Voice](#)" on MotoLyrics.com

Since I was a boy
I listen to this voice
It heals me, inspires me
It makes me cry
It enhances my senses
It makes me smile
It shows me the way to heaven
And teaches me love

She speaks the words of passion and struggle
A woman's voice can be heard
Across the radio waves
It makes me think of the mother
Who's singing to her children
The whole world stops whenever
The lady sings the blues

Amor, amor

It carries the waves within my memories
I want to hear for as long as I live
The woman's voice that is a... part of me
