On my way... my way... mmmm yeah
On my way... my way...
You just need motivation
So I'm thinking you should let me give you more the
conversation
Just a demonstration how I'm a lay your body down
I am on my way I'm in my ride I am costing headed to
you
I am on my, my way mmmm
In my ride and I am costing headed to you
I am on my way, my way
Take it easy

When I'm pulling up in my drive miss
You know is normally topless
You know these suckers they ain't got this
Cause they car garages is are drop less
I hope your door is unlocked if you need I be your new
locksmith
I took so long cause my driveway is like a parking lot at
metropolis
I'm always care for which whip to choose
No evidence for getting choose if breaking bars was
against the rules
I know every day I will be getting sued
Chop the screwed to get you in the mood
Get out your shoes and get in the nude
Ever since they told me money talks
I have been chatting like I am getting interviewed
It must be something that is in my scoto
That makes a model to say that she swallow
On the way all and I can say is I'm there before you
done with the bottle
Shift the gear then now hit the throttle I swerve so much
that I missed the pothole
One the way it's your lucky day I'm about to make you
feel
Like you hit the lotto

[Chorus:]

You just need motivation
So I'm thinking you should let me give you more the

conversation

Just a demonstration how I'm a lay your body down
I am on my way I'm in my ride I am costing headed to
you

I am on my, my way

In my ride and I am costing headed to you

I am on my way, my way

Take it easy

I turn the corner I'm a tip it down

You in the presents of greatness

Never been a chef boyardee I can't let the women in
cake mix

That's Tasteless and I taste chips

Forget the the kid for my lateness before you even turn
off the lights

I be there to give you that face lift

What I meant by that last line is that

I'm a be in your face like botox

If you got socks then lose those socks

And have nothing on but your broke box

Diamonds larger than road rocks

While I'm trying to prove how to show stop

Car looking like a cruse ship I got no garage

I load docks (I load docks)

No road blocks (no road blocks)

I flow daily (I flow daily)

And you'll flow too When I ge to you It'll get so wavy

I'm the only player who you know lately then can coach
a girl

To get so crazy make her kiss a girl like you know Caitie

I can motivate you let's go baby

[Chorus:]

You just need motivation

So I'm thinking you should let me give you more the
conversation

Just a demonstration how I'm a lay your body down

I am on my way I'm in my ride I am costing headed to
you

I am on my, my way

In my ride and I am costing headed to you

I am on my way, my way

Take it easy

I'm about to exit the freeway to break you off if you let
me

I just know that you let me

I just know that you let me

I am pulling up in your drive way I just hope that you're
ready

I just hope that you're ready
I just hope that you're ready
Nothing but the finest candy coats is what you're
tasting
Push it to the limit call it motor motivation
Hope you're buckled up I hope your seat belt got you're
braced in
Texas player so will do but slow will switch the paced in

I'll be the player headed to your location
And be the person that you put in your faith in
The pillow that you let you know waiting
Will be the pillow that you put your face in
I told her never get must aching
I know I'm better than the rest I got great win
Good thanks, but those who stay patient I bet a get a
couple standing ovation

[Chorus:]

You just need motivation
So I'm thinking you should let me give you more the
conversation
Just a demonstration how I'm a lay your body down
I am on my way I'm in my ride I am costing headed to
you
I am on my, my way
In my ride and I am costing headed to you
I am on my way, my way
Take it easy
