"Successful"

(Chamillitary mayne)

[Verse 1 - Chamillionaire]

Yeah

In school I was skinny, my homie told me "I'll show you things"

Then he taught me how to take a soda out a coke machine

Hurry up before it ring, wrote a letter to the bing

Life can get you screwed and ya it's true, my homie's on a lean

Hit the money spot, couldn't pull no money out

Went to Pen and Pixel, asked to help 'em with the Photoshop

Knew the pictures wasn't real, Pen and Pixel known to crop

Now they takin pictures of the drop when I unfold the top

Uh, my father put me in a Levi

Couldn't afford to step in a Huarache or a Fila

Psychic walked up to me, asked me if I wanna see my Future, I told her "no because my future is to be fly"

Uh, I got my sky miles up

Successful just ain't in sight, I guess I found my luck

Said every chick I'm around in that H-Town messed up

Especially to have the privilege of an all night tuck

(yeah)

[Chorus - Chamillionaire]

I got the money, money and the cars

Cars and the clothes, the hoes, I suppose

I knew I would be, I knew I would be successful

I knew I would be, I knew I would be successful (yeah)

I knew I would be, I knew I would be successful

[Verse 2 - Chamillionaire]

Said I was dressin tacky (yeah), while they was dressin in khakis

Walked in the gymnasium, back when they didn't attack me (yeah)

Pictures that they attach me that say "that I miss you
badly"
Wonderin how it feel to realize that you could of had
me (could of had me)
Even in Spanish little Kelly was lookin cute
The usages of her tongue could never be good as you
It was Quito (yeah), Ecuador (yeah), Lima (yeah), Peru
Who knew that I would of flew? to every city that she
spew
Interview and I ain't even have no time for dinner
But no one cares that you're skinny when they feel that
you a winner
Women want to be with you, even if you a beginner
Want you to stay the night even if you ain't really finna
You enter, the room and she's watchin out the corner
Her eye on you, realize that she got barely nothin on
her
She gets off of the bed and then says "follow if you
wanna" (yep)
She hops in the jacuzzi and says join her (yep)

[Chorus]
