### *[Intro]*

Get away, get away, (ay)  
You got to have a passport if you rollin' wit me,  
We can hit Jamaica, or we can chill in France, (yeah)  
Roll wit a playa, you can bring a friend, (yeah)  
You in the presence of some playas,  
Chamillitary do it big, (ay)  
We can hit Hawaii or the Caribbean, (yeah)  
We can do it major, chillin' on the sand.

### *[Chorus]*

You stressin' every day 'cause the way that ya livin',  
See it in ya face, ain't no fakin' the feelin',  
We can get awaaaay and be chillin',  
We can get awaaaay and be chillin'  
We can go today and get away for a minute,  
Party every day, do your thing to the rhythm,  
We can get awaaaay, get away,  
We can get awaaaay and be chillin'  
(Ay) I got money, got papa, (ay)  
Got plenty of chedda, (plenty of chedda) (ay)  
So we treatin' today like we know it ain't lastin' forever,  
(ay)  
Now bartender remember to bring the straw with the  
umbrella, (please bring the umbrella) (ay)  
We just drinkin' and thinkin' of a way that we can make  
life better.

### *[Verse 1]*

Yeeah, coconut with the umbrella baby,  
And the Rihanna soundin' chick is the umbrella lady,  
There ain't no carpet on the floor like they're  
renovating,  
Palm trees like my old homeboy, hella shady,  
Time flies so you know the clock is passin' through,  
(Whoo)  
Hit the sand is the only other task to do, (True)  
You know my fan base is international,  
Their fan base is only within an avenue,  
(Uhh) Go wherever that ya plan,  
G5, I show 'em how to fly like Peter Pan, (Whoo)  
Get a lobster, anything that you demand.

If it isn't then it's something that you will never eat  
again,  
Step off the yacht if you want to see the land,  
I'll take you to the sun if ya really need a tan,  
Water look like oxygen anywhere you stand,  
'Cause the ocean is so clear you look down and see the  
sand.

*[Chorus]*

You stressin' every day 'cause the way that ya livin',  
See it in ya face, ain't no fakin' the feelin',  
We can get awaaaay and be chillin',  
We can get awaaaay and be chillin'  
We can go today and get away for a minute,  
Party every day, do your thing to the rythm,  
We can get awaaaay, get away,  
We can get awaaaay and be chillin'

*[Verse 2]*

(Let's hear it) If money talks, my papa prolly speak  
Greek, (Greek)  
I'm in a different continent like each week, (week)  
Seein' daylight and they gon prolly be asleep,  
No cell phones in the telegram and each speech,  
Females is like your chick is so hot to me,  
Can we all chill? I turn maybe to possibly,  
You know my beach house is what ya got to see,  
Paper and property, walkin' game of monopoly,  
(monopoly)  
My helicopter lands on the boardwalk, (walk)  
Where the residents ain't understanding your talk,  
(talk)  
The cliff ends and the salt water pours off,  
Think what you think, but you'll never have a poor  
thought,  
Water so warm that the fishes isn't cold,  
And the air is so open that the pigeons get exposed,  
Didn't I remind you to bring your swimming clothes?  
No, I didn't, on purpose now you're swimmin' in ya  
"Whoah"

*[Chorus]*

(Ay) I got money, got papa, (ay)  
Got plenty of chedda, (plenty of chedda) (ay)  
So we treain' today like we know it ain't lastin' forever,  
(ay)  
Now bartender remember to bring the straw with the  
umbrella, (please bring the umbrella) (ay)  
We just drinkin' and thinkin' of a way that we can make  
life better.

*[Verse 3]*

It's all good long as you don't turn on my like a door knob,  
Try to make my flow stop like a cork does,  
And we'll be in Hawaii eatin' corn cob,  
Pinnin' a flower in your hair like a corsage,  
Said I shouldn't leave, but you know I didn't hear a thing,  
10 karat earring blockin' all my hearing,  
Never go back is exactly what they fearing,  
I know plenty Jamaicans so I brought you to the real thing,  
Rude boy, sick with it and I'm dipped in blue,  
It's like I just appeared here but I really flew,  
They say it just to rhyme, this is what I really do,  
Deja Vu, we'll repeat it when the year is through.

*[Chorus]*

You stressin' every day 'cause the way that ya livin',  
See it in ya face, ain't no fakin' the feelin',  
We can get awaaaay and be chillin',  
We can get awaaaay and be chillin'  
We can go today and get away for a minute,  
Party every day, do your thing to the rythm,  
We can get awaaaay, get away,  
We can get awaaaay and be chillin'
