[Intro]

They like where you been man
I'm like you'll find out when you need to know
Poison, coming soon

H-town so throwed
If I said it then you know it's what I mean
I do it all from my home
Cause that's who got me thinking i'm the damn king
I pro'ly hurt a few feelings
Cause y'all be trickin' on 'em way too easy
See you can feed a few pigeons
That's when you realise them hoes a tease

Live from the Bahamas
I gotta be honest
Working on a classic gotta forgive me for my silence
Swear it felt like college, knowledge that you gave was
timeless
Knew that you had good brain, I knew you'd graduate
with honours
My P was the finest, bowing like she paying homage
Pulling that ponytail girl what you mix with Pochahontos
Cesa triple zeros, working jumping over commas
You can say that I gave you love but you can't say I
gave a promise
Girl no dollars

And girl i'd love to kick it wit' ya but you know I gotta
run
And stack some hundreds inbetween my trigger finger
and my thumb
It was lovely while it lasted but I think the time has
come
Hope you keep your composure when I say that it's over

We all done
Darling, we all done
She said i'm on one
Now that we're all done, done, done
I might not cuff and I might not trick
I might just split cause we don't just fit

Don't come back cause she might be sick

Cause she might be the one that I say i'm not with
When we all done
Now that we're all done, done, done

Loving the way she grip me
Loving the way my grip be
Feeling off in my pockets... and she history
Legends like Snoop and 50
Maybach Coupe like Ricky
Feeling just like my dick be weighing a tonne off in my
dickies
Ball like Kenneth Griffey, hit it like Kenneth Griffey
They say stay on your toes, that's why i'm always on my
tippies
Watch the people close incase any one of y'all acting
shifty
Lipstick on my hollow tip don't let this clique give you a
hicky
Posted in between the pillow, laying near in the
pyjamas
With the slickest Texas rhymer that's when you know
you can find her
Tell the dead i'm out of time, you know that that's a
problem i'ma make her say
I know you didn't got her sounding just like Wonda
The 16th I be in Vegas, 26th I be in China
Booked 'til August, I come back and drop a mixtape in
my honour
We live from the Bahamas, hope her panties is
designer
I had your girl interior decorating her vagina

And girl i'd love to kick it wit' ya but you know I gotta
run
And stack some hundreds inbetween my trigger finger
and my thumb
It was lovely while it lasted but I think the time has
come
Hope you keep your composure when I say that it's over

We all done
Darling, we all done
She said i'm on one
Now that we're all done, done, done
I might not cuff and I might not trick
I might just split cause we don't just fit
Don't come back cause she might be sick
Cause she might be the one that I say i'm not with
She said i'm on one

Now that we're all done, done, done
