Now he's free not like you and me  
They treat him like a star  
you see  
Now he's got the key  
he's fancy free  
He doesn't hide from extasy  
Do you hear me  
do you hear me  
He's with the angels and the sun in the sky  
He's a rock and roll star  
He's got it made  
plays it straighter than straight  
He's a rock and roll star  
Yes  
he's a rock and roll star

A super star - he feels fine.  
Yes  
he's a rock and roll star  
A super star - he feels fine.

Would you believe  
oh  
he lives without grieve  
They let him go on new years eve  
Fortune and fame  
oh  
what a shame  
There ain't nobody left to blame  
Do you hear me  
do you hear me.

He's with the angels and the sun in the sky
