

Champagne Flutes "Hey Baby"

Visit "[Hey Baby](#)" on MotoLyrics.com

Hey baby haven't you heard been looking for you sugar
What's the good word?
Tell me darling when can you spend sometime alone
with me
'Cause I've been yearning for your touch

Hey sugar come sit next to me, got something to show
you
Ecstasy, you make me feel special
And I'll do anything as long as you're with me
'Cause I will be all that you need, you're safe with me

Hey sugar whenever you're free
I'll light the candles to set the scene
Cuddle up on the sofa baby and make tonight our
fantasy
'Cause I can't seem to get enough lost in your love

Everything about you gets me in the mood
You're my inspiration, no one else would do
Everything about you gets me in the mood
You're my inspiration, no one else would do

Everything about you gets me in the mood
You're my inspiration, no one else would do
Hope that you'll stay baby and make tonight our
fantasy
