In isolation
we can't go too far
so my good friend from the bar
brought a case
of a fine pinot noir
he knows we are who we are

there was a dream
that i had in my car
racing to safety in bed
with a gun

and my old pinot noir
sleeping i feel like a star

i'm in a black and white movie
where humphrey bogart never gets shot
light me up a cigarette
then serve me up, mister
i hate what i'm not

you sure don't look
like a dame from these parts
but if you're after my heart
crack a case
of a fine pinot noir
then let's just see who we are

we are who we are
