Lemonade soft  
Lotion up down her back  
Beach makes a memory  
Waves take the memory back

Run to the shore  
Finally it's fun time  
Down in the water  
Love how this sunshine feels  
And it's real

Dreaming on the sand  
Dreaming my boss would understand

High on the scotch  
Diggin the lust  
I'm still asleep  
Damn, is my life a bust

(Wave)  
I got to get a new dream  
(Wave)  
But they keep on killing them away  
(Wave)  
I got to get a new dream  
(Wave)  
But they keep on dying every day

Once I get money  
Thieves take the money back

Once I mistook  
Your words for a promise  
I'm such a schnook  
And you're a dishonest girl  
Welcome to the world

Low self esteem  
Lowers the odds of a brand new dream

Now by the pool  
Keeping my shirt on

No silly girl  
Be putting no hurt on me

(Wave)  
I got to get a new dream  
(Wave)  
Cause they keep on killing them away  
(Wave)  
I got to get a new dream  
(Wave)  
But they keep on dying every day

(Repeat)

(You should fly away  
From dreams that died today)

Well I know, well I know  
Will I know? will I know?  
I know

I don't want to  
Really I don't want to  
I just want to stay here  
It could come back  
Maybe it would come back  
If I sit and wait here

(But you should fly away  
From dreams that died today)

Well I know, well I know  
Will I know? will I know?  
I know

I don't want to  
Really I don't want to  
I just want to stay here  
It could come back  
Maybe it would come back  
If I sit and wait here

(But you should fly away  
From dreams that died today)

I know.
