You're my Sun, my Moon, my Skies,
your my everything...

You're my Sun, my Moon, my Skies,
Your my everything
And everyday being with you, makes me
Think, what a new day will bring

You're my life and my breath
You're exactly what I need right now
And I'll never take you for granted
No not for a moment

And then I find myself alone out here
Thinking of what we could have been
And I know this loneliness is not for me
And then I find myself alone out here
Thinking of what we could have been
And I know this loneliness is not for me
We should be together for eternity

Don't let go to let me know this is over
And maybe I held on to long but now, I see
The life I left was not the best, and I no longer believe
You're not the one I knew but i'll stay true to my heart
and myself

And then I find myself alone out here
Thinking of what we could have been
And I know this loneliness is not for me
And then I find myself alone out here
Thinking of what we could have been
And I know this loneliness is not for me
We should be together for eternity

I know I'll find myself
I know I'll find myself
I know I'll find myself
I know I'll find myself
