See the birds as they fly away  
Making things for another day  
And the hearts of the lonely ones  
Found in you they can trust

There goes the light again  
But the light you saved left them dim  
And they will never forget the love  
That you shared with it

Oh, I don't mind having your attention  
And I hope in time  
That the whole world will listen

Do little things today  
Do little things to do  
Do little things 'cause I know what it means to you

Do little things today  
Do little things to do  
Do little things 'cause I know what it means to you

See the glow on your face  
It's a reform no one can take away  
And the joy that runs through me  
Is so free

I love being apart  
Even if the smallest heart let's me in  
I want a friendship that will never, never, never end  
That's why

Do little things today  
Do little things to do  
Do little things 'cause I know what it means to you

Do little things today  
Do little things to do  
Do little things 'cause I know what it means to you

We got to do something  
We got to do something

Oh, I don't mind having your attention  
And hope in time  
That the whole world will listen

Do little things today  
Do little things to do  
Do little things 'cause I know what it means to you

Do little things today  
Do little things to do  
Do little things 'cause I know what it means to you

Do little things today  
Do little things to do  
Do little things 'cause I know what it means to you

Do little things today  
Do little things to do  
That's why I do the things I do, do, do  
The things I do, do, do, I do, do, do  
The things I do, do, do

The things I do, do, do  
That's why I do what I do  
Things I do, do, do  
That's why I do what I do  
The things I do, do, do
