He keeps pushing trying to persuade to give him something
You know better, but you've done it before -so whatever
You know it's gotta change, but you don't know the right way
You know I'm here, and I'll help you find the words to say
You gotta tell him that it's never ever worked before
You wanna wait -it's not too late- you can rest assured
If he's the one for you he'll wait for you
I gotta let you know
You're moving too fast to respect what he has
Girlie gotta show him that you're made of class
I told you before - he'll be out the door
I gotta let you know
He's still asking, sweetie stay strong you owe him nothing
Meet in the middle - so you give in just a little
You know it's gotta change, but you don't know the right way
You know I'm here, and I'll help you find the words to say
You gotta tell him that it's never ever worked before
You wanna wait it's not too late you can rest assured
If he's the one for you he'll wait for you
I gotta let you know
You're moving too fast to respect what he has
Girlie gotta show him that you're made of class
I told you before - he'll be out the door
I gotta let you know
Don't know what you do so I'm telling you
He aint workin for it cause you give it up too soon
He says I love you, but I love you too
So I gotta let you know
You keep making the same mistakes
But baby girl I feel your pain now it's time to do the right thing
You keep making the same mistakes
But baby girl make it special
I gotta let you know
You're moving too fast to respect what he has
Girlie gotta show him that you're made of class

I told you before he'll be out the door
I gotta let you know, gotta let you know
Don't know what you do so I'm telling you
He ain't working for it cause you give it up too soon
He says I love you, but I love you too
So I gotta let you know
