So you wanna get next to me  
Tryin' real real hard to get fresh with me  
Boy you're always just testin' me  
Sayin' that you love me & it's destiny

See I don't wanna lead you on boy  
If you think it's that easy you're wrong boy  
Think about it real long boy  
Better listen close to this song boy

I'm kissin' on you like you want me to  
While you telling me the things  
That you wanna do [wanna squeeze me, wanna hold  
me]  
Pull me close to you  
But I gotta put the brakes on what we do

See I don't wanna lead you on boy  
If you think it's that easy you're wrong boy  
Think about it real long boy  
Better listen close to this song boy

My touch will make you think  
About all that we can do  
One kiss will make you think  
How am I gunna get this  
Gotta gotta get this

My touch will make you think  
Can't do nothing but think  
When I lay here still, just think  
About me constantly

Ya you're wrapped around gettin' it  
But boy can't you see there's more to this  
Now I'm loosing my patience, cause this will  
Be the third time I've told you this  
See I don't wanna lead you on boy  
If you think it's that easy you're wrong boy  
Think about it real long boy  
Better listen close to this song boy

Your opening doors & showin' support  
Doesn't mean my clothes will be on the floor  
Gunna tease you, gunna leave ya coming back for  
more  
Cause I can tell you everything that's in store  
See I don't wanna lead you on boy  
If you think it's that easy you wrong boy  
Think about it real long boy  
Better listen close to this song boy

My touch will make you think  
About all that we can do  
One kiss will make you think  
How am I gunna get this  
Gotta gotta get this

My touch will make you think  
Can't do nothing but think  
When I lay here still, just think  
About me constantly

Round round we go, & where we stop no one knows  
Now what are you thinkin' about  
You'll be guessin' that's a fact  
Round round we go, & where we stop no one knows  
Now what are you thinkin' about  
You'll be guessing, that's a fact

My touch will make you think  
About all that we can do  
One kiss will make you think  
How am I gunna get this  
Gotta gotta get this

My touch will make you think  
Can't do nothing but think  
When I lay here still, just think  
About me constantly

My touch will make you think  
About all that we can do  
One kiss will make you think  
How am I gunna get this  
Gotta gotta get this

My touch will make you think  
Can't do nothing but think  
When I lay here still, just think  
About me constantly
