I wake up to your eyes laying on me
Why is it you love watching me sleep
I'm lucky to have your arms around me
There's no other place that I'd rather be

My heart is beating crazy just thinking that you're with
me

I'm outta my mind, I'm head over heels
Just thinking about those moments with you
Smiling now while I'm reminiscing...
Unforgettable memories play in my head
Unforgettable memories play in my head

You brought me roses just cause you missed me

Who knew a guy could be so sweet
Adorable all the things you do for me
You're perfect and sometimes it's hard to believe

So many moments to come
Unforgettable
So many things we haven't done
Unforgettable

The silly things you say keep me smiling
I'm myself around you nothing in between
Flawless the words you use to keep me laughing
More than I imagined we fit perfectly
