## "An Evil Eye"

Visit "[An Evil Eye](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I have an evil eye  
And it's pointed straight at you  
My stare is cold  
A reflection of my soul

I am the evil eye  
That is pointed at you all  
This stare is cold  
A true reflection of your souls

I am the monkey on your back  
The boogiemani under your bed  
The skeleton in your closet,  
Incubus in your dreams

I am the stalker, I am the rapist  
I am the strangler, I am the slasher  
I am the reaper, I am cancer  
I am vermin, I am the demon  
I am religion, I am the a-bomb  
I am the cyclon, I am the needle in your arm  
I am the tumour in your brain  
I am the weakness in your heart  
I am the pain without a name
