Past is altered by the future, how can the past ever be true?

If the present day people make false facts they can blind you

The truth is now a lie and all history is erased

Double think, thought crimes, all made to keep you in your place

1984 - You are a slave day in, day out

1984 - Just a time slot nine to five is what it's all about

1984 - Hard-line, war crimes, what you know

1984 - Take away all the facts, then we can't fucking grow

In my room the cameras sit on every side of me

Silently I sit and watch the death of privacy

The Proles live freely because they don't pose threat

To become a Party member's something you'll regret

1984 - We all stay distracted stapled to our telescreens

1984 - Keeping us convinced we're not just another machine

1984 - Hard-line, war crimes, what you know

1984 - Take away all the facts, then we can't fucking grow

Everyone sit down for Two Minute Hate is here

And watch the enemy Goldstein march his troops in fear

But after that Big Brother is there to save the day

To make you believe in what he's about to say

1984 - Everyone speaks in code or what they call Newspeak

1984 - While slowly they erase another word each week

1984 - Hard line, war crimes, what you know

1984 - Take away all the facts you can't fucking grow

1984 - Death of a man, is creation of another

1984 - I guess that is life under Big Brother

1984 - If there is hope it lies in the Proles

1984 - But without change man will decompose

"War is peace!"

"Freedom is slavery!"

"Ignorance is strength!"

"Big brother's watching you!"
