Teenage dropout no where to go
Left his family to go on his own
Living his life by every paycheck
Lost his job now his life's wreck

Living life in a vicious circle no steady job and out of
money
Same things happens every year and everywhere you
seem to be
NO FUTURE NO NOPE
Degenerate Society
NO HOPE NO FUTURE
Degenerate Society

Months go by and now hes debt
Money he doesn't have but they won't let him forgot
He realizes now his life's just a waste
Just another loser whose easy to replace
