The media takes what you fucking see  
From the local crimes to the war overseas  
Leaving out the facts that manipulate the truth  
Implementing fear to brainwash me and you  
Brainwash!  
The headlines repeat  
Control!  
The things that we see  
Blinded!  
Minds molded by their hands  
Their lies!  
Keep us true to this land  
Every night you sit and gather round the TV screen  
Don't care about the stories when its all based on  
greed  
It's became a major effort to falsify the past  
With propaganda made to target the lower class  
Mindless Control!  
Theirs economic failure because of this war  
More deaths for the dollar and less to feed the poor  
But thats not what you read in the news  
Don't blinded believe in another's views
