Friday night your loaded up  
Nothing new, you don't give a fuck  
Once that bottle hits your lips  
Soon as the bottle hits your lips  
Everything you are just turns to shit  
Your lies seem to have no end  
Always seem to get fucked in the end  
I'm so sick, sick of you  
Same old shit, nothing new  
Friday night your loaded up  
Once you light that fucking joint  
Once you light that fucking joint  
Your feelings of love stray form the point  
Your lies seem to have no end  
Always seem to get fucked in the end
